

WEITACK® SBS

H100 & A100

Properties:

SBS H100 & A100 is a copolymer which made from butadiene and styrene, white solid, it's hardness come from PS and elasticity come from butadiene, it owns advantages of both rubber and plastics, has excellent low and high temperature endurance, breathability and excellent elasticity, can be used well together with SEBS,SIS....., widely used in modification of road asphalt, adhesive....

Specification:

Type:		H100	A100
Volatile	%	1.0	1.0
Shore hardness; A,	min	85	65
300% Modulus	min	3.5	2
Tensile strength	Mpa	25	20
Elongation rate	%	710	650
permanent set	%	55	40
MFR	g/10min	0.01- 5.0	0.01-0.5

Application

SBS H100 used in Adhesives,
SBS A100 used in Road Asphalt Modification

Package:

15g/20kg Kraft bags

Storage:

Store it in ventilation place
